### **Manual**

by R:BASE Technologies, Inc.

Welcome to R:FTPClient 11!

R:FTPClient is a fully automated FTP client for simple file management both locally and remotely. R:FTPClient gives Internet users the ability to quickly upload, download, delete and rename one or more files as well as create and delete directories on a FTP server.

### 1 Introduction

## 1.1 Introducing R:FTPClient 11

R:FTPClient is a fully automated FTP client for file management offering both secure (FTP over SSL) and non-secure transfers. Encrypted file transfers is supported through Secure Sockets Layer (SSL v2/v3) and Transport Layer Security (TLS v1). R:FTPClient gives users the ability to quickly upload, download, delete and rename one or more files as well as create and delete folders.

A progress window, which can be disabled, displays what percentage of files has already been uploaded or downloaded. The progress window contains a "Abort Transmission" button to cease the connection to the FTP server. A FTP log can also be displayed or disabled, as well as saved to a file. A wait parameter is available to momentarily pause FTP transactions.

R:FTPClient is a perfect FTP client solution for software developers as well as Webmasters of all levels.

## 1.2 Copyrights

Information in this document, including URL and other Internet web site references, is subject to change without notice. The example companies, individuals, products, organizations and events depicted herein are completely fictitious. Any similarity to a company, individual, product, organization or event is completely unintentional. ### 1.3 License

### R:BASE TECHNOLOGIES, INC. LICENSE AGREEMENT

## R:FTPClient 11 Single Seat License

This is a legal agreement between you, the end user ("**Licensee**"), and R:BASE Technologies, Inc. ("**RBTI**"). Please read the terms and conditions of this License Agreement before using this software. By you selecting "I accept the license agreement" and clicking "Next" during product installation means you expressly accept the terms and conditions of this Agreement. If you do not accept the terms and conditions of this Agreement, you must stop installing the Product and click "Cancel". Your money will be refunded based upon proof of purchase, and in compliance with the return period described in the LIMITED WARRANTY below. A violation of the License, brings damage both financially and to the reputation of RBTI, and in the occurrence of either, both termination of the license agreement and civil damages will be vigorously sought. Once you have clicked "I accept the license agreement", you are entitled to use the Product under the following terms and conditions of this Agreement:

### **LICENSE**

This RBTI License Agreement permits you to use one copy of the R:FTPClient computer software with associated utilities (the "**Program**") and accompanying user documentation (the "**Documentation**") on any single computer. If you do not have a Site License or at least one 5 Seat Add-On License, this program can only be installed on a single machine. However, you can open multiple sessions and be connected to the same and/or other local or network databases on the same machine simultaneously. (The 5 Seat Add-On License permits additional seats to access the Program, in 5 seat increments if each is physically linked to a single file server and you have obtained a separate license for a Single Seat version of the Program. 5 Seat Add-On Licenses must be licensed at the same Single Seat version). A Program is "being used" on a computer when it is loaded into a temporary memory or installed on a hard drive in the computer. However, a copy of the Program installed on a network server for the sole purpose of distribution to other computers is not "being used". Each seat having access to the Program must have an appropriate license. If you anticipate that the number of seats with access to ensure that the appropriate licenses are obtained for each seat.

### **5 SEAT ADD-ON AND SITE LICENSES**

If a printed or other form of "hard-copy" License accompanied the copy of the Program you received whose terms vary from this agreement, then the hard-copy License governs your use of the Program. 5 Seat Add-On and Site Licenses allow you to install the Program on the total number of machines for which you are licensed only.

### **SATELLITE LICENSES**

A Satellite License permits a Licensee to use one copy of the copy of the Program on any additional single computer, for additional development to accompany an existing Single Seat License. The Satellite License must be licensed to the same user as the existing Single Seat License. Each seat having access to the Program must have an appropriate license.

### **COPYRIGHT AND RESTRICTIONS**

RBTI retains full ownership rights in the Program and Documentation. You may make a single copy of the Program; to be used solely for backup or archival purposes, or you may transfer the Program onto a single hard disk provided you keep the original solely for backup or archival purposes. Such copies shall be owned by RBTI. You may not copy any printed material or Documentation without prior permission. You may not decompile, disassemble cross-compile, reverse engineer, or make or distribute any other form of, or derivative work from, the Program. You may not obscure, alter or remove any RBTI copyright, trademark or proprietary rights notices.

### TRANSFER OF LICENSE

You may not lend, rent or lease the Program or Documentation or any copies to any person. A transfer of license is only authorized through completion of the Consent to Assignment and Assumption of Contract agreement from RBTI. Upon license transfer, you are permanently giving such person possession of all copies of the Program and Documentation, are permanently giving up your right to use the Program and Documentation, and the recipient agrees to the terms of this License Agreement.

### STEP UPS AND UPGRADE PURCHASES

As the Licensee, you are authorized to use the Program only if you are an authorized user of a qualifying product as determined by RBTI. The new license agreement takes the place of the agreement of the qualifying software you stepped up or upgraded from. After you upgrade, you may no longer use the software from which you upgraded. When you install the upgrade, you must uninstall the copy of the qualifying product.

### **TERM OF LICENSE**

The licensing provided in this License Agreement is perpetual unless you violate any of its terms or conditions, at which time the license will automatically terminate. Upon termination you must return all copies of the Program and Documentation to RBTI or certify in writing to RBTI that all such copies have been destroyed and uninstalled from each workstation and/or network server. RBTI reserves the right to, at its expense and without prior notice, conduct periodic inspections for licensing compliancy. If licensee is found to be in violation of current agreement, RBTI may commence a civil action seeking fines, damages, attorney's fees and injunctive relief and may also, in appropriate circumstances, seek criminal prosecution.

### **ACTIVATION CODES**

The Program requires activation using a unique code. If you purchase a Single Seat License with or without 5 Seat Add-On Licenses, you agree to comply with the license activation and verification procedure described in this section of the Agreement. The activation technology may prevent your use of the Program if you do not follow the activation process described in this Agreement.

Each activation code is tied to one Windows operating system computer. A dual-boot computer with multiple operating systems cannot activate a Single Seat License on more than one operating system. Any software utilities which alter how the Program is installed on a local drive are not supported. This includes any utilities which alter, remove or transfer the location of the Program on the hard drive, or any hard drive utilities which alter the physical properties of the local drive.

The Program activation can be completed automatically through an Internet connection or manually through a provided email option. In doing so, the Program Registration Number and Computer ID must be provided. License validation allows a number of activations based upon the number of licenses purchased.

If a computer is no longer using the Program, through license transfer or hardware failure, the Activation Key that was used on the computer must be submitted to R:BASE Technologies so the key may be disabled, which will then free up that used activation. Once a key is reported as no longer in use and deactivated, it can no longer be used on that computer. Product deactivation can be performed automatically from within R:BASE. To review the License Key and Activation Key product information, select "Help" > "Product Activation" from the Menu Bar.

Licenses for the Corporate VIP Licenses of the Program are not controlled by activation codes and can be operated from computers that are not connected to the Internet.

### SOFTWARE SUPPORT

The availability of software support services is subject to the End of Support (EOS) and End of Life (EOL) product life cycle, and to an active Software Assurance Plan. Where applicable, licensees will be provided with an option to upgrade to the current supported version of a software product.

### **LIMITED WARRANTY**

RBTI warrants to you, as the initial user, the Program will perform substantially in accordance with the Documentation, provided it is used in unaltered form with functioning equipment and operating systems for which it was designed. RBTI will, at its option, with proof of payment within 30 days of the invoice date and after the Program with Documentation has been deactivated and uninstalled, and software installer, whether provided by download or other means, permanently deleted from all drives and folders, issue a full refund. These are your sole remedies for any breach of warranty. No exceptions will be made.

### **SERVICES PROVIDED WITH PURCHASE**

### 1. 30-Day Limited Complimentary Technical Support

### LICENSEE RESPONSIBILITIES

- To help us expedite the process and provide high quality assistance, the licensee must provide proof of purchase when calling. Proof of purchase is defined as the following: registration number, purchase date, version and build number, and company or individual to which product is registered.
- To have operating system, workstations, and local network installed and functional. RBTI will NOT be responsible for resolving issues not pertaining to the Program.
- Our support staff deals with advanced issues, therefore the person contacting RBTI for assistance should be the system administrator or have other R:BASE/SQL experience and be able to understand and implement the advice given.
- To have the database(s) being converted, safely backed-up before attempting conversion process. RBTI will NOT be held responsible for lost data or corruption as a result of advice given.

### R:BASE TECHNOLOGIES, INC. RESPONSIBILITIES

- To provide quality assistance in a timely manner to aid Licensee in the installation of the product within 30 days of the date of purchase.
- To provide a reasonable solution for any resolvable issue. Not all issues are resolvable, and therefore we will acknowledge the existence of known issues or "bugs" which we are presently aware of, that have no reasonable work-around.

RBTI reserves the right to limit the amount of support time allotted to a maximum of <u>2 HOURS</u> during the 30-Day Complimentary Technical Support Period. We also reserve the right to limit the quantity of calls from a particular Licensee to <u>30 MINUTES</u> in a single day. Issues are dealt with on a case-by-case basis, and are handled at the discretion of the support agent assigned to the case. Complimentary Support is limited to INSTALLATION and ELEMENTARY CONVERSION related issues ONLY. Our support hours are from 10am. to 6pm. Eastern Time.

For assistance on your APPLICATIONS, DESIGN, or ADVANCED CONVERSION issues, we offer Technical Support Plans of various types to meet your needs. Please visit the SUPPORT area of our website at www.rbase.com for details and pricing.

### 2. Fixes for Known Issues

RBTI will provide continued product fixes for known issues or "bugs" for <u>1 YEAR</u> from the software purchase date. After 1 year, users are urged to acquire the necessary Software Assurance Plan to continue with product support and ongoing activations for reinstallations and license transfers.

### 3. Enhancement Requests

RBTI will provide continued product enhancements for requested features for <u>1 YEAR</u> from the software purchase date. After 1 year, users are urged to acquire the necessary Software Assurance Plan to continue with product support and ongoing activations for reinstallations and license transfers.

### 4. Periodic Activations

RBTI will provide periodic product activations of license transfers and/or reinstallations for <u>1 YEAR</u> from the R:BASE purchase date. Any activation requests that occur beyond the 1 Year purchase date will require an active Software Assurance Plan.

### **NO OTHER WARRANTIES**

Except as explicitly stated above, RBTI makes no express or implied warranties (including any warranties of merchantability or fitness) with respect to the character, function, or capabilities of the program, the documentation or their appropriateness for any user's purposes. RBTI cannot customize product(s) to meet specific needs in all cases. Examples of customization include, but are not limited to: special character sets, foreign language adaptations, specific device drivers or other localization issues. Under no circumstances will RBTI be held responsible for product functionality once alterations have been made to accommodate individual needs.

### **DISCLAIMER OF WARRANTY**

The Program and the accompanying files are sold "as is" and without warranties as to performance or merchantability or any other warranties whether expressed or implied. Because of the various hardware and software environments into which the Program may be put, No warranty of fitness for a particular purpose is offered. Good data processing procedure dictates that any program be thoroughly tested with non-critical data before relying on it. The user must assume the entire risk of using the Program. Any liability of the seller will be limited exclusively to product replacement or refund of purchase price.

### **HIGH RISK ACTIVITIES**

The Program is not fault-tolerant and is not designed, manufactured or intended for use or resale as online control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, air traffic control, aircraft navigation or communication systems, direct life support machines, or weapons systems, in which the failure of the Program could lead directly to death, personal injury, or severe physical or environmental damage ("High Risk Activities"). RBTI specifically disclaims any expression or implied warranty of fitness for High Risk Activities.

### **LIMITATIONS ON LIABILITIES**

RBTI will not be responsible for any costs or damages associated with loss of the use of the Program or any other resources, loss of business or profits, any loss of data, any third-party claims or costs of substitute programs. In no event will RBTI be liable for any incidental, indirect, special, consequential or punitive damages suffered by the user or any other person or entity, whether from the use of the program or documentation, any failure thereof, or otherwise, even if RBTI or its dealers or agents are aware of the possibility of such damages. In no event will RBTI aggregate liability to you or anyone else exceed two times the license fee you paid for the program and documentation in this package. Because some states do not allow the limitation or exclusion of implied warranties and liabilities for consequential or incidental damages, the above limitations may not apply to you.

### **GENERAL**

This License Agreement constitutes the full and complete agreement between parties. RBTI retains all rights not specifically granted herein. RBTI shall not be deemed to have waived any of its rights hereunder or under all copyright laws, trade secrecy laws or otherwise. This Agreement is intended as a legally binding agreement which will be enforced to the full extent permitted under applicable law, in whole or in part. If any one provision of this Agreement is declared invalid or unenforceable, all remaining provisions shall never less remain in effect. The laws of the state of Pennsylvania shall govern this Agreement. RBTI reserves the right to amend, alter, or revoke this agreement at any time. All revisions to this license agreement are available for inspection upon request, supersede conditions in all past agreements, and render prior license agreements void and unenforceable. Both parties named in this license will only be bound to the terms of the most current revision of this agreement.

### **U.S. GOVERNMENT RESTRICTED RIGHTS**

Use, duplication or disclosure by the Government, its agents or employees is subject to all restrictions imposed by law, regulation or government directive, including but not limited to those restrictions set forth in DFARS 252.227-7013 and 48CFR 52.227-19, as applicable.

## 1.4 Complimentary Support

### **30 DAY LIMITED COMPLIMENTARY TECHNICAL SUPPORT**

### A. LICENSEE RESPONSIBILITIES.

1. To help us expedite the process and provide high quality assistance, the licensee must provide proof of purchase. Proof of purchase is defined as the following: registration number, purchase date, version and build number, and company or individual to which product is registered.

- 2. To have operating system, workstations, and local network installed and functional. R:BASE Technologies will NOT be responsible for resolving issues not pertaining to the software product.
- 3. Our support staff deals with advanced issues, therefore the person contacting R:BASE Technologies for assistance should be the system administrator or have other R:BASE/SQL experience and be able to understand and implement the advice given.
- 4. To have the database, application, and command files being reviewed, safely backed-up before attempting assistance. R:BASE Technologies will NOT be held responsible for lost data or corruption as a result of advice given.

### B. R:BASE TECHNOLOGIES, INC. RESPONSIBILITIES.

- 1. To provide quality assistance in a timely manner to aid in the installation of the product and elementary conversion of database, application, and command files within 30 days of the date of purchase.
- 2. To provide a reasonable solution for any solvable issue. Not all issues may be solved, and therefore we will acknowledge the existence of known issues, or bugs, which we are presently aware of, that have no reasonable work-around.

R:BASE Technologies reserves the right to limit the amount of support time allotted to a maximum of 2 HOURS during the 30-Day Complimentary Technical Support period. We also reserve the right to limit the quantity of calls from a particular licensee to 30 MINUTES in a single day. Issues are dealt with on a case-by-case basis, and are handled at the discretion of the support agent assigned to the case. Complimentary Support is limited to INSTALLATION and ELEMENTARY CONVERSION related issues ONLY. Our support hours are Monday through Friday, from 10:00 AM to 6:00 PM (EST).

For application, design, or advanced conversion assistance, R:BASE Technologies offers Technical Support Plans of various types to meet your needs. Please visit the Support page at <a href="https://www.rbase.com/support">https://www.rbase.com/support</a> for details and pricing.

### 2 Installation

### 2.1 System Requirements

The following system specifications are recommended for the optimal use of R:BASE and R:BASE-related software.

### **Workstation Hardware**

- 2-Core 2GHz+ CPU
- 2 GB of available RAM (4 GB recommended)
- 2 GB of available hard disk space
- 1024x768 or higher resolution video adapter and display
- Standard mouse or compatible pointing device
- Standard keyboard

### Server Hardware

- 2-Core 2GHz+ CPU
- 6 GB of available RAM (8 GB recommended)

### **Operating System**

- Microsoft Windows 11 (Professional)
- Microsoft Windows 10 (Professional)
- Microsoft Windows Server 2025
- Microsoft Windows Server 2022
- Microsoft Windows Server 2019
- Microsoft Windows Server 2016

### Network

- Ethernet infrastructure (Gigabyte recommended)
- Internet connection recommended, but not required, for license activation, software updates, and support
- Anti-virus programs should exclude the R:BASE program, and any add-on product, executable and database files

## 2.2 Things You Will Need

License Key

Before launching the installer, it is recommended that you have your 32-character License Key readily available. The License Key is provided in a document, with the email message, when the software was originally purchased. If you have lost or misplaced your License Key, please contact our Support Staff by email at <a href="mailto:support@rbase.com">support@rbase.com</a>.

• Internet Access

The computer where the software will be launched should have access to the Internet for activation. The Internet access is used to visit the R:BASE Technologies Web site to provide your required Activation Key.

In instances where the software will be installed on a computer that is not connected to the Internet, you must then contact R:BASE Technologies to provide information displayed on the computer screen. Please contact our Product Activation Staff by email at <a href="activationkey@rbase.com">activationkey@rbase.com</a>. The Registration Number must be provided. The Registration Number is displayed on the invoice/order slip, and within the email, when the software was originally purchased.

### 2.3 Software Installation

The installation of R:FTPClient is fully automated and does not require user intervention for the initial setup.

Run the installer ".exe", provided by download, while physically sitting at the workstation to begin the installation process, and read the installer screens for licensing and other information as the program installs.

### **Installation Directory**

C:\RBTI\RFTPClient11

### **Files Installed**

RFTPClient11.rbm libeay32.dll ssleay32.dll RFTPClient11.chm RFTPClient11.pdf RFTPClient11.ico License.rtf ReadMe.txt

### Requirements:

### Plugin and DLLs

The R:FTPClient 11 Plugin file (RFTPClient11.rbm) must be placed in the R:BASE 11 program directory (default: C:\RBTI\RBG11) or the runtime/compiled application directory. The SSL DLLs (libeay32.dll, ssleay32.dll) must also be placed in the folder for FTPS support.

## 2.4 Plugin Activation

R:BASE Plugins can be used to enhance, or extend R:BASE operations. Current R:BASE Plugins use the .RBM file extension.

To begin using any plugin product, the plugin must be registered for use.

The license type for R:BASE and R:BASE plugin products must match. The license keys supplied with Single Seat and 5 Seat plugin products will only be accepted within Single Seat and 5 Seat versions of R:BASE, and are not accepted within R:Compiler for R:BASE or Runtime for R:BASE programs. The same license structure is also in place for Runtime License Keys for plugin products, where the key will not be accepted within Single Seat and 5 Seat Licenses R:BASE.

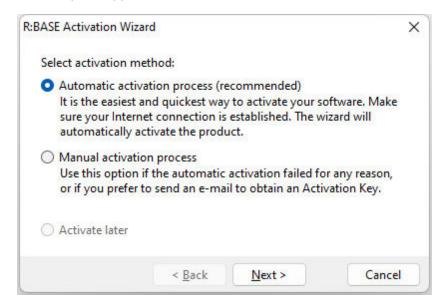

### 2.4.1 R:BASE

To begin using a plugin product, you must register the software within R:BASE by selecting "Help" > "Product Activation" from the main Menu Bar. In this window, select the "Add New" button where you can enter or copy and paste the License Key you received with your product.

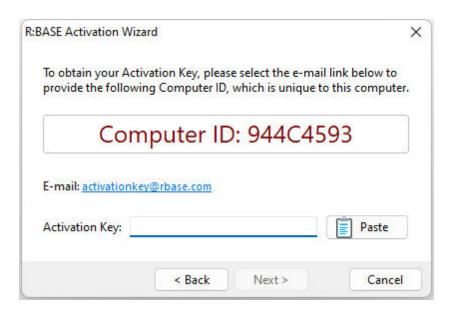

Only "Per Seat" License Keys are valid for this entry screen. All "Runtime" License Keys must be registered within R:Compiler for R:BASE or within Runtime for R:BASE separately.

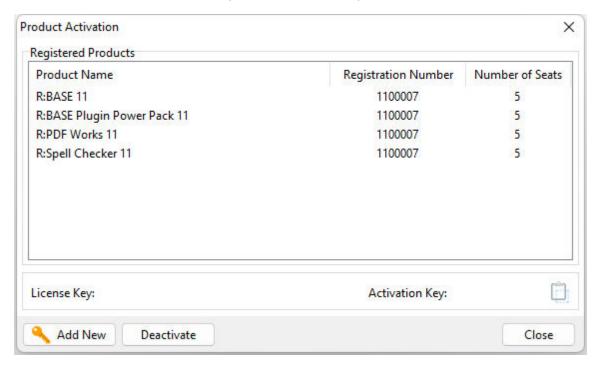

After entering the License Key, you will see a dialog to prompt for your activation method. The software can be activated automatically over the Internet, or manually by retrieving an Activation Key from R:BASE Technologies by email or over the phone. If you select "Later", you will be reminded each time R:BASE starts to activate your copy.

When activating the software manually, you select the e-mail link to launch your email client and send a pre-formatted message to R:BASE Technologies that will contain your License Key and the displayed Computer ID. You will need to provide your R:BASE Registration Number and Computer ID.

At any time, you can review your product information by starting R:BASE, and from the Menu Bar clicking on "Help" > "Product Activation". Your R:BASE Registration Number is displayed on the window. You can also enter additional License Keys for R:BASE add-on products.

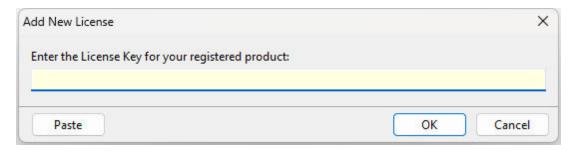

Please be advised that if you are activating multiple workstations, it is highly recommended that you keep records of the computer name, Computer ID and Activation Key for future reference. Access to this information will prove convenient in the event of a hardware failure or license transfer when uninstalling R:BASE.

Please see: Uninstall/Reinstall

### 2.4.2 R:Compiler for R:BASE

### **Runtime License Key**

Runtime license keys for an R:BASE Plugin must be stored within the compiled executable. A specific Runtime License Key would be provided after your purchase of the Runtime software product. Adding a Runtime License to your project can be done by selecting the "Add License" button, and pasting the appropriate Runtime License Key into the displayed dialog window.

After a Runtime License is added as a resource, it will be assigned a "Resource ID". This ID consists of the word "License" and an incrementing value for the number of licenses added to the executable.

### Plugin File (.RBM)

R:BASE Plugin files can be added and stored within the compiled executable or included within the R:BASE application directory. The Runtime license key pertaining to the R:BASE Plugin must be stored in the compiled executable.

Adding a Plugin to the list of resources can be performed by selecting the "Add Plugin" button on the Tool Bar. You will be prompted to locate the appropriate Plugin file with the .RBM file extension. After a Plugin file is added as a resource, it will be assigned a "Resource ID". This ID consists of the Plugin file name.

### 2.4.3 Runtime for R:BASE

After R:BASE Plugins are acquired for Runtime for R:BASE applications, the Plugin file must be included in the Runtime application folder, to be loaded when the Runtime application launches.

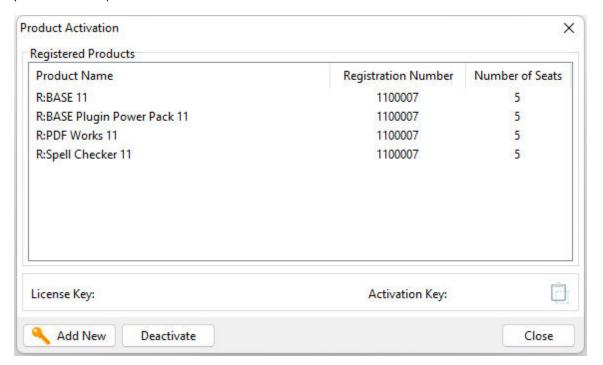

To load the Plugin, the License Key must be included into the Runtime for R:BASE session by adding the following PROPERTY command within the application startup file:

PROPERTY ADD\_LICENSE ####-###-###-###-###-###-###-### ' '

### 3 Uninstall

If a computer is no longer using R:FTPClient, through license transfer or hardware failure, the Activation Key that was used on that computer must be submitted to R:BASE Technologies so we can then remove the Activation Key from our log. We will disable the Key, which will then free up that used activation. Once a key is reported to us as no longer in use and deactivated, it can no longer be used on that computer.

Product deactivation can be performed automatically from within R:BASE. To review your product information select "Help" > "Product Activation" from the Menu Bar. Here, the License Key and Activation Key for a selected product is available for review.

If the License Key for your product is not readily available for the license transfer, select the "Copy License Key" button to send your License Key to the clipboard.

To deactivate a listed product, select it and press the "Deactivate" button. The below confirmation dialog will appear. After selecting "Yes", the product will be removed from the list.

After completing the deactivation of the product, it can be successfully reinstalled and activated.

## 4 Using R:FTPClient

## 4.1 Command Syntax

### Syntax:

### Where:

- The vResultVar variable name and parameters must be separated by the pipe character "|".
- VarName is the resulting text variable which will return the status of the process, such as 'OK' or the exact -ERROR- message.

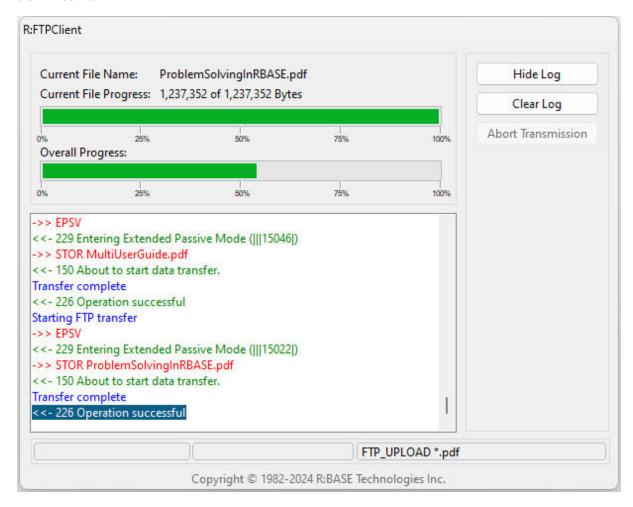

### **Parameters:**

Supported Parameters	Values	Description
FTP_USERNAME	value	Specifies the FTP server user name
FTP_PASSWORD	value	Specifies the FTP server password
FTP_HOST	value	Specifies the FTP server address (domain or IP address)
FTP_PORT	value	Specifies the FTP server port (by default 21)
FTP_SECURED	NO IMPLICIT REQUIRE EXPLICIT	Specifies if the FTP connection is secure. The value of NO specifies FTP is used (default). Using either IMPLICIT, REQUIRE, or EXPLICIT will activate FTPS.
FTP_SSL_METHOD	SSL_V2 SSL_V23 SSL_V3 TLS_V1 TLS_V11 TLS_V12 AUTO	Specifies the protocol SSL/TLS version to use. With the AUTO value all supported versions will be tried.
FTP_DATA_PROTECTION	CLEAR PRIVATE	Specifies whether the data transmission is encrypted (private). The default is CLEAR.
FTP_PASSIVE	TRUE FALSE	Specifies if passive mode is used for the transfer
FTP_CONNECT		Connects to the FTP server
FTP_DISCONNECT		Disconnects from the FTP server
FTP_CHDIR	value	Changes the current folder on the FTP server
FTP_MAKEDIR	value	Creates a new FTP server folder
FTP_RENAME	value	Renames an existing file on the FTP server
FTP_REMOVEDIR	value	Deletes a FTP server folder (folder must be empty)
FTP_RENAMEDIR	value	Renames a FTP server folder
FTP_UPLOAD	value	Uploads files to the FTP server from the current folder
FTP_DOWNLOAD	value	Downloads files from the FTP server to the current folder
FTP_DELETE	value	Deletes file(s) on the FTP server
FTP_FILESIZE	file name	Returns the size of a particular file
FTP_FILE_LIST	value	Returns the names of the files in the current remote folder. Folders are included in the list of returned objects. Folders end with a forward slash "/". Wildcards can be used, or the value can be left blank.
FTP_NOOP		Sends <b>NO OP</b> erations to the FTP server to help you keep your connection alive during periods of inactivity
DELETE	value	Deletes file(s) in current folder on the client computer
RENAME	value	Renames file(s) in current folder on the client computer
RENAME_DIR	value	Renames a folder on the client computer
CHDIR	value	Changes current folder on the client computer
MKDIR	value	Creates new folder on the client computer

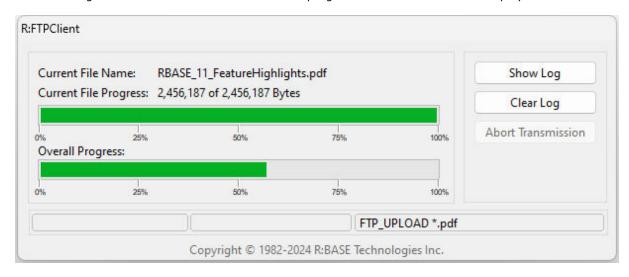

WAIT	value	Specifies to pause in milliseconds (1 sec = 1000 milliseconds)
AUTOREPLACE	TRUE FALSE	Specifies if a file with same name exists in current folder during the download process, that file will be replaced if AUTOREPLACE is TRUE. When uploading files, AUTOREPLACE is not available.
SHOW PROGRESS		Shows the progress window
HIDE PROGRESS		Hides the progress window
TOP	value	Shows the progress window location, in pixels, from the top of the screen down
LEFT	value	Shows the progress window location, in pixels, from the left of the screen over
SHOW LOG		Specifies the FTP log
HIDE LOG		Hides the FTP log
SAVE_LOG	TRUE FALSE	Saves the FTP log
LOG_FILE_NAME	value	Specifies the FTP log file name and folder location

## 5 Progress Window

A progress window, which can be disabled, displays what percentage of files has already been uploaded or downloaded. The progress window contains a "Abort Transmission" button to cease the connection to the FTP server.

The "Hide Log" button can be used to minimize the progress window for a smaller display.

## Part WIII

## 6 Examples

## 6.1 Example 1

-- Connects to the FTP site, make a new directory on the client computer and download files

```
PLUGIN RFTPClient 'v1|LOG_FILE_NAME c:\temp\RFTP.log'
PLUGIN RFTPClient 'v1 | SAVE LOG TRUE'
PLUGIN RFTPClient 'v1|SHOW PROGRESS'
PLUGIN RFTPClient 'v1 FTP_USERNAME ftpadmin'
PLUGIN RFTPClient 'v1 | FTP PASSWORD ftppsswrd'
PLUGIN RFTPClient 'v1|FTP_HOST ftp.domain.com'
PLUGIN RFTPClient 'v1|FTP_PORT 21'
PLUGIN RFTPClient 'v1 FTP SECURED EXPLICIT'
PLUGIN RFTPClient 'v1 FTP SSL METHOD AUTO'
PLUGIN RFTPClient 'v1 FTP CONNECT'
PLUGIN RFTPClient 'v1 | FTP_PASSIVE TRUE'
PLUGIN RFTPClient 'v1 FTP_DATA_PROTECTION PRIVATE'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1 FTP CHDIR IMAGES'
PLUGIN RFTPClient 'v1 AUTOREPLACE FALSE'
PLUGIN RFTPClient 'v1 | FTP DOWNLOAD 0*.jpg'
PLUGIN RFTPClient 'v1 WAIT 2000'
PLUGIN RFTPClient 'v1 FTP DOWNLOAD 1*.jpg'
PLUGIN RFTPClient 'v1 WAIT 2000'
PLUGIN RFTPClient 'v1 AUTOREPLACE TRUE'
PLUGIN RFTPClient 'v1|FTP DISCONNECT'
PLUGIN RFTPClient 'v1 | HIDE PROGRESS'
PLUGIN RFTPClient 'v1 | SAVE_LOG FALSE'
```

### WHERE:

- LOG\_FILE\_NAME specifies a log file name for the file transfer process
- SAVE\_LOG TRUE saves the FTP data log
- SHOW PROGRESS displays the progress
- FTP\_USERNAME ftpadmin specifies ftpadmin as the user name
- FTP\_PASSWORD ftppsswrd specifies ftppsswrd as the password
- FTP\_HOST ftp.domain.com specifies ftp.domain.com as the host server
- FTP\_PORT 21 specifies 21 as the port number
- FTP\_SECURED specifies if the connection is secure (FTP or FTPS)
- FTP\_SSL\_METHOD specifies the protocol SSL/TLS version to use for FTPS
- FTP\_CONNECT connects the the FTP host server
- FTP\_PASSIVE specifies that passive mode is used for the transfer
- FTP\_DATA\_PROTECTION specifies that the data transmission is encrypted (private)
- WAIT pauses the routine for 2 milliseconds (2 seconds)
- FTP\_CHDIR IMAGES changes to the IMAGES on the FTP host server
- AUTOREPLACE FALSE specifies any files with the same name will NOT be overwritten
- FTP\_DOWNLOAD 0\*.jpg downloads all jpg files starting with 0 to the FTP host server
- FTP\_DOWNLOAD 1\*.jpg downloads all jpg files starting with 1 to the FTP host server
   AUTOREPLACE TRUE specifies any files with the same name will be overwritten automatically
- FTP\_DISCONNECT disconnects from the FTP host server
- **HIDE PROGRESS** hides the progress
- SAVE\_LOG FALSE closes the FTP data log

### 6.2 Example 2

-- Connects to the FTP site, make a new FTP directory uploads PDF documents, and captures the PDF file list

```
PLUGIN RFTPClient 'v1|SHOW PROGRESS'
PLUGIN RFTPClient 'v1|FTP_USERNAME ftpadmin'
PLUGIN RFTPClient 'v1|FTP_PASSWORD ftppsswrd'
PLUGIN RFTPClient 'v1|FTP_HOST ftp.domain.com'
PLUGIN RFTPClient 'v1|FTP_PORT 21'
PLUGIN RFTPClient 'v1|FTP_CONNECT'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1|FTP_CHDIR abcdef'
PLUGIN RFTPClient 'v1|FTP_CHDIR abcdef'
PLUGIN RFTPClient 'v1|FTP_UPLOAD *.PDF'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1|WAIT 2000'
PLUGIN RFTPClient 'v1|FTP_UPLOAD *.PDF'
PLUGIN RFTPClient 'v1|FTP_FILE_LIST *.pdf'
PLUGIN RFTPClient 'v1|FTP_DISCONNECT'
PLUGIN RFTPClient 'v1|HIDE PROGRESS'
```

### WHERE:

- SHOW PROGRESS displays the progress
- FTP\_USERNAME ftpadmin specifies ftpadmin as the user name
- FTP\_PASSWORD ftppsswrd specifies ftppsswrd as the password
- FTP\_HOST ftp.domain.com specifies ftp.domain.com as the host server
- FTP\_PORT 21 specifies 21 as the port number
- FTP\_CONNECT connects the the FTP host server
- WAIT 2000 specifies a wait time of 2000 milliseconds (2 seconds)
- FTP\_MAKEDIR abcdef creates the new directory abcdef on the FTP host server
- WAIT 2000 specifies a wait time of 2000 milliseconds
- FTP\_CHDIR abcdef changes to the directory abcdef on the FTP host server
- FTP\_UPLOAD \*.PDF uploads all PDF documents to the FTP host server from the client computer
- WAIT 2000 specifies a wait time of 2000 milliseconds
- FTP\_FILE\_LIST \*.pdf' returns the names of PDF files in the folder
- FTP\_DISCONNECT disconnects from the FTP host server
- **HIDE PROGRESS** hides the progress

## 6.3 Example 3

-- Connects to the FTP (secure) site and capture a XLS file list and download a text file

```
PLUGIN RFTPClient 'v1|SHOW PROGRESS'
PLUGIN RFTPClient 'v1|FTP_USERNAME ftpuser'
PLUGIN RFTPClient 'v1|FTP_PASSWORD ftppsswrd'
PLUGIN RFTPClient 'v1|FTP_HOST ftp.domain.com'
PLUGIN RFTPClient 'v1|FTP_PASSIVE TRUE'
PLUGIN RFTPClient 'v1|FTP_SECURED REQUIRE'
PLUGIN RFTPClient 'v1|FTP_SSL_METHOD TLS_V1'
PLUGIN RFTPClient 'v1|FTP_DATA_PROTECTION PRIVATE'
PLUGIN RFTPClient 'v1|FTP_DONNECT'
PLUGIN RFTPClient 'v5|FTP_FILE_LIST *.xls'
PLUGIN RFTPClient 'v1|WAIT 1000'
PLUGIN RFTPClient 'v1|FTP_DOWNLOAD readme.txt'
```

```
PLUGIN RFTPClient 'v1|FTP_DISCONNECT'
PLUGIN RFTPClient 'v1 | HIDE PROGRESS'
```

### WHERE:

- SHOW PROGRESS displays the progress
- FTP\_USERNAME ftpuser specifies ftpuser as the user name
   FTP\_PASSWORD ftppsswrd specifies ftppsswrd as the password
- FTP\_HOST ftp.domain.com specifies ftp.domain.com as the host server
- FTP\_PASSIVE specifies passive mode is enabled for the transfer
- FTP\_SECURED REQUIRE specifies the FTP secure connection is required, and activate FTPS
- FTP\_SSL\_METHOD TLS\_V1 specifies the SSL/TLS protocol to use
- FTP\_DATA\_PROTECTION PRIVATE specifies the data transmission is encrypted
- FTP\_PORT 21 specifies 21 as the port number
- FTP\_CONNECT connects the the FTP host server
- FTP\_FILE\_LIST \*.xls captures the file list of XLS files for the remote folder
- WAIT 1000 specifies a wait time of 1000 milliseconds (1 second)
- FTP\_DOWNLOAD readme.txt specifies to download the text file
- FTP\_DISCONNECT disconnects from the FTP host server
- **HIDE PROGRESS** hides the progress

## **7** FTP Error Codes

Code         Description           100 Codes - The requested action is being taken. Expect a reply before proceeding command.           110         Restart marker reply.           120         Service ready in (n) minutes.           125         Data connection already open, transfer starting.           150         File status okay, about to open data connection.           200 Codes - The requested action has been successfully completed.           200         Command okay.           202         Command not implemented	g with a new			
command.  110 Restart marker reply.  120 Service ready in (n) minutes.  125 Data connection already open, transfer starting.  150 File status okay, about to open data connection.  200 Codes - The requested action has been successfully completed.  200 Command okay.				
120 Service ready in (n) minutes.  125 Data connection already open, transfer starting.  150 File status okay, about to open data connection.  200 Codes - The requested action has been successfully completed.  200 Command okay.				
125 Data connection already open, transfer starting. 150 File status okay, about to open data connection. 200 Codes - The requested action has been successfully completed. 200 Command okay.				
150 File status okay, about to open data connection.  200 Codes - The requested action has been successfully completed.  200 Command okay.				
<b>200 Codes</b> - The requested action has been successfully completed.  200 Command okay.				
<b>200 Codes</b> - The requested action has been successfully completed.  200 Command okay.				
202 Command not implemented				
211 System status, or system help reply.				
212 Directory status.				
213 File status.				
214 Help message.				
NAME system type. (NAME is an official system name from the list in the As Numbers document.)	ssigned			
220 Service ready for new user.				
Service closing control connection. (Logged out if appropriate.)				
Data connection open, no transfer in progress.				
226 Closing data connection. Requested file action successful (file transfer, about	rt, etc.).			
227 Entering Passive Mode				
230 User logged in, proceed.				
250 Requested file action okay, completed.				
257 "PATHNAME" created.				
<b>300 Codes</b> - The command has been accepted, but the requested action is being held pending receipt of further information.				
User name okay, need password.				
Need account for login.				
Requested file action pending further information.				
400 Codes - The command was not accepted and the requested action did not take	e place. The			
error condition is temporary, however, and the action may be requested again.				
Service not available, closing control connection. (May be a reply to any control service knows it must shut down.)`	mmand if			
425 Can't open data connection.				
426 Connection closed, transfer aborted.				
500 Codes - The command was not accepted and the requested action did not take				
Syntax error, command unrecognized. This may include errors such as comtoo long.	nmand line			
501 Syntax error in parameters or arguments.				
502 Command not implemented.				
503 Bad sequence of commands.				
Command not implemented for that parameter.				
User not logged in.				
Need account for storing files.				
Requested action not taken. File unavailable (e.g., file not found, no access	5).			
Requested file action aborted, storage allocation exceeded				
Requested action not taken. Illegal file name.				

## 8 Technical Support

Please read over the help documentation at least once before seeking support. We have worked very hard to make the help documentation clear and useful, but concise. It is suggested that you reread these instructions once you have become accustomed to using the software, as new uses will become apparent.

If you have further questions, and cannot find the answers in the documentation, you can obtain information from the below sources:

- Email our Technical Support Staff at: <a href="mailto:support@rbase.com">support@rbase.com</a>
- Access the R:BASE Technologies Support home page online at https://www.rbase.com/support

You may be required to purchase a technical support plan. Several support plans are available to suit the needs of all users. <u>Available Technical Support Plans</u>

Please be prepared to provide the following:

- The product registration number, which is located on the invoice/order slip for the purchased product
- The type of operating system and hardware in use
- Details regarding your operating environment; such as available memory, disk space, your version of R:BASE, local area network, special drivers, related database structures, application files, and other files that are used or accessed by your application

All provide information will be used to better assist you.

R:BASE Technologies has a number of different services available for R:BASE products. As a registered user, you will receive information about new features for R:BASE and other R:BASE Technologies products. Please remember to register your software. <a href="https://www.rbase.com/register/">https://www.rbase.com/register/</a>

### 10 Feedback

### **Suggestions and Enhancement Requests:**

From time to time, everyone comes up with an idea for something they'd like a software product to do differently.

If you come across an idea that you think might make a nice enhancement, your input is always welcome.

Please submit your suggestion and/or enhancement request to the R:BASE Developers' Corner Crew (R:DCC) and describe what you think might make an ideal enhancement. In R:BASE, the R:DCC Client is fully integrated to communicate with the R:BASE development team. From the main menu bar, choose "Help" > "R:DCC Client". If you do not have a login profile, select "New User" to create one.

If you have a sample you wish to provide, have the files prepared within a zip archive prior to initiating the request. You will be prompted to upload any attachments during the submission process.

Unless additional information is needed, you will not receive a direct response. You can periodically check the status of your submitted enhancement request.

If you are experiencing any difficulties with the R:DCC Client, please send an e-mail to rdcc@rbase.com.

### **Reporting Bugs:**

If you experience something you think might be a bug, please report it to the R:BASE Developers' Corner Crew. In R:BASE, the R:DCC Client is fully integrated to communicate with the R:BASE development team. From the main menu bar, choose "Help" > "R:DCC Client". If you do not have a login profile, select "New User" to create one.

You will need to describe:

- What you did, what happened, and what you expected to happen
- The product version and build
- Any error message displayed
- The operating system in use
- Anything else you think might be relevant

If you have a sample you wish to provide, have the files prepared within a zip archive prior to initiating the bug report. You will be prompted to upload any attachments during the submission process.

Unless additional information is needed, you will not receive a direct response. You can periodically check the status of your submitted bug.

If you are experiencing any difficulties with the R:DCC Client, please send an e-mail to <a href="rdcc@rbase.com">rdcc@rbase.com</a>.
